

## NORTH WESTERN ELECTRIC COOPERATIVE

All prices listed are for estimation purposes only, final cost may vary.

All fees must be paid before construction. However, if the project cost is greater than \$10,000, half must be paid before construction begins, and then the 2nd half is due upon connection of service.

\*If primary underground lines require boring, there is an extra charge, but is based on a customized quote from our boring vendor.

\*\*The \$ per 250 Ft cost is for each additional pole/junction box required to be installed.

\*\*\*Changing Overhead Primary from Single-Phase to Three-Phase assumes use of same poles.

Please talk to one of our engineers to get a quote.
